Doctors Baffled By Mysterious Deaths of Twins

WINCHESTER AGENT IN MURDER SEARCH

CALLER OF OFFICE OF DISTRICT ATTORNEY

Loranger, Former Night Agent at Winchester Station, is Also Questioned

Dr. Rella B. Sargent and John A. Loranger were called into conference by District Attorney Edward P. Saltonstall today and questioned in connection with the murder of Station Agent Ralph W. Brewster at the Winchester station of the B. & M. Railroad last Thursday night.

Dr. Sargent was a close friend of Brewster, who lived with the physician and Mrs. Sargent. He has been questioned before.

Loranger was formerly night agent at Winchester station when Brewster arrived to take the job. Present at the questioning of the two were Chief of Police William H. Mcintosh at Winchester and a state detective.

The police have wanted to question Loranger concerning the knowledge of Brewster's habits and acquaintance since Saturday last. Loranger has been at his home in Milton, N. H., returning shortly after noon today.

THREE THEORIES

Three theories were followed by the authorities in an effort to solve the Brewster mystery today. They were: That there was a woman in the case, whose husband or suitor killed Brewster because of jealousy; that the slayer mistook him for another man; and that the slayer mistook him for another man.

A further development which may have much to do with the case, was the receipt by the Boston American of the following post card from a man in Haverhill.
"Dear Sir:—I work in a business that brings me often into the town of Winchester. I have often seen a blonde-haired car in the town, saw it last Tuesday in front of the office of the Winchester Bar.
"Friday morning about 10, I was coming home when I saw the auto at the corner of 13th and Main, Haverhill, with two men in it. They called me over and asked if they were on Kenos Avenue. I said they were right. I noticed one man's hand was bleeding and bruised as if he had hit somebody.
"I looked scared.
"He saw me look at the hand and laughed, like what a wiper would say was a forced laugh, saying he hurt it fooling with his foot. I remarked I often saw them in Winchester. The driver got scared, shoved me away with his hand and drove off down Main street.
"I am wanted in several cities for larceny but I am going straight now, if the cops will let me alone, so I can give you my name.
"The driver was medium build, rather fat and wore a gray suit. The friend, who did the talking, was medium height, slimmer, black mustache, brown hat and dark suit. Both were between twenty-five and thirty-five years old. I know the car who was looked off and he was

"Militant Mothers" Call for 150,000 Soldiers

By International News Service. Washington, April 24.—A message from the "Militant Mothers of America" pleading for a "peace army" of 150,000 men to maintain an adequate national defense, was delivered to the Senate Army Appropriations Committee today by Miss Mary G. Kilbreth of Baltimore.

SENATE CALLS ON

HARDING TO EXPLAIN

Washington, April 24.—President Harding today was asked by the Senate to explain his use of executive orders in appointing government employees without civil service examinations. A resolution sponsored by Senator Harrison, embodying the request was passed without a record vote. It requested the president to name all employees so employed and to cite a reason for the abandonment of the civil service rules.

5 FINED FOR BETTING

ON BASEBALL GAME

Five men were fined and three others had their cases placed on the docket of Judge Connolly today as the result of a round-up of baseball betters at Braves field.

BROOKLINE MAN GOES

ON TRIAL FOR MURDER

Francis Mahoney of Brookline went on trial in Boston Superior Court today, charged with second degree murder for the fatal shooting of Alexander McDougall, a Canadian war veteran, on December 9 last. Mahoney pleaded not guilty.

HARDING VIEWS TO BLOCK HOUSE BONUS BILL

WASHINGTON, APRIL 24.—SOLDIERS' bonus legislation

struck another snag today when representatives of the American Legion were informed by Republican members of the Senate Finance Committee that President Harding's opposition to the House bonus bill would prevent its passage by the Senate in its present form.

BOOTLEGGERS SMUGGLE \$3,000,000 LIQUOR

New York, April 24.—John D. Appleby, prohibition chief, said today a bootlegging ring had smuggled more than \$3,000,000 worth of liquor into the United States.

CONSOLIDATED STOCK MARKET FIRM CLOSED

New York, April 24.—The consolidated stock exchange today announced the suspension of Field Brothers. The office of the company was closed this morning. The company was organized August 4, last.

MORRILL DIVORCE SURPRISE

Ralph Carpenter Named by Husband, Who Tells of More Kissing Parties

At resumption today of the hearing in which Leon Gilbert Morrill, Brookline club man and ink manufacturer, seeks divorce from Florence C. Morrill, the name of Ralph Carpenter, the name of Ralph Carpenter was injected into the case as that of one of the men Mrs. Morrill is alleged to have been in love with.

Morrill on the witness stand also kept spectators interested by admitting more kissing parties. He suffered a caustic grilling concerning a mysterious "Mabel" of Newwood. Mr. Morrill also testified that Mrs. Morrill told him she was "infatuated with a Mr. Goff of Pawtucket."

The mention of Ralph Carpenter caused a surprise in the Boston Superior Courtroom, jammed with Brooklyn and Boston debutantes, suit debars and matrons.

It came in unexpected fashion, being brought out by Mr. Morrill's attorney, Fred Knowlton. In direct examination of his client, who occupied the witness stand throughout the day.

It concerned revelations alleged to have been made to Mr. Morrill by Dr. Waterman concerning Mrs. Morrill.

TELLS OF PARTY

"When did you first talk with Dr. Waterman?" asked the attorney. "After Mrs. Morrill had visited him two or three times," replied the witness. "I asked him what he said something about a party in Scituate. I asked Dr. Waterman if Mrs. Morrill had been with other men and he replied the tale had not. I told Dr. Waterman that Mrs. Morrill said to me that she was in

Rose Coghlan, Ill and in Want, Gets \$10,000 Gift

New York, April 24.—Rose Coghlan, once the flower of the American stage, who was found recently to be ill and in dire want, awoke today to find fortune once more smiling on her.

Sam H. Harris, president of the Producing Managers' Association, handed Miss Coghlan \$10,000, the gift of members of her profession, who, in the most brilliant assemblage of noted stars this season, last night staged a huge benefit for the veteran actress.

REF USES TO FIGHT CHARGES

Attacks Court's Acceptance of State's Evidence at Previous Trial

Joseph C. Pelletier, former district attorney of Suffolk County, today refused to fight the disbarment proceedings brought against him by the Bar Association in Supreme Court, and after reading a brief statement abruptly left the courtroom.

His action was similar to that taken by Attorney Daniel H. Coakley at a hearing last week. Pelletier's action was not unexpected. Only a small group of lawyers were in court. It had been rumored that "he would not put up a fight."

In his statement Pelletier charged that the evidence in the trial in Supreme Court, which was removed from officers and which was to be used as the basis of today's disbarment proceedings did not justify the findings.

"That the testimony in my case did not justify the findings, was the contention of my distinguished attorney, Senator James A. Hood, and I most earnestly so maintain today."

REF BY ONE

London, April 24.—Ireland today was cut off from all communication with the outside world, the result of a general strike in all industries proclaimed by the Irish Labor Party in protest against military tactics being employed by both loyal and militant sections of the Irish Republican Army.

All normal activities were suspended at 4 o'clock this morning and will not be resumed until 5 o'clock tonight.

Just before telephone service to the Emerald Isle was discontinued there were unconfirmed reports from Dublin that Michael Collins, who made a speech yesterday at Tralee, had been delayed in his return to Dublin by upstart roads near Newcastle, 12 miles northwest of the South Irish capital.

There were unconfirmed reports also that a truce had been agreed upon by warring army factions.

Members of the Labor Party had planned demonstrations today and early tomorrow in all parts of the island in protest against military tactics.

Government leaders were taking extreme measures to prevent actual attacks.

ORDER ARREST OF BROCKTON EAGLES

Warrants Issued Following Raid of Club Rooms by Prohibition Agents

As the result of a raid by prohibition officers on the headquarters of the Brockton Aerie, No. 617, Fraternal Order of Eagles, warrants were issued today by United States Commissioner Hayes for the arrest of two of the officers of the organization, on other member and the furnace tender.

The men to be arrested are: Joseph D. O'Brien, financial secretary of the order; Michael Hennessey, chairman of the board of trustees; William O'Brien, who was "treasurer" and Jacob Geline, colored, who said he was official furnace tender.

The men are charged with possession and manufacturing nineteen half-barrels of ale and a complete outfit for brewing the same.

Prohibition agents under Field Superintendent, Agent J. P. Roberts raided the headquarters of the aerie at No. 26 Ward street, Brockton, last Friday and say they found nineteen half-barrels of ale and a complete outfit for brewing the same.

According to Roberts the brewed ale was being served at the bar to about 50 members when the prohibition officers entered the place. Roberts said that the ale was sold up through a pipe to the bar by a common law and was on tap for all the members.

Roberts stated that when the officers raided the bar the bartender, O'Brien was there and that he denied the ale was the furnace tender. Geline, the colored man, claimed the honor, however, and Roberts said O'Brien was the "brew master."

TEN CENTS A GLASS. The ale, Roberts says, was being sold over the bar at 10 cents a glass. He added that the glasses were small. The aerie has about 1,200 members.

The warrants have been placed in the hands of deputy marshals and are expected to be served at once.

While the officers were at Brockton they also raided the store of Joseph Weinstein in the Aerie building and he appeared today before Commissioner Hayes charged with selling apparatus designed for manufacture of liquor. He pleaded not guilty and was held in \$100 for a hearing May 1.

LABOR BOARD STAYS PROBST'S DEPORTATION

Washington, April 24 (By International News Service)—August 1921, a Boston native of Pittsburgh, who alleged he was about to be forcibly deported from the country because of a love affair with the daughter of a wealthy Pittsburgh family, won a temporary victory today before the board of review of the Labor Department. After a hearing the board decided to hold up his deportation indefinitely until a decision can be reached on the merits of the case.

BURGLARS GET \$1000 IN GOODS AT WHINTROP

Burglars forced an entrance into the dry goods store of Chas. Gaine at Jefferson and Putnam streets, Wintrop, Conn., today and carried away 1,000 worth of merchandise. Police believe that the robbers used an automobile in taking away the goods.

MUNSEY GIVES \$100,000 TO BOWDOEN COLLEGE

Brunswick, Me., April 24.—Bowdoin College today announced a gift of \$100,000 from Frank A. Munsey, New York publisher. The college is making a drive for \$400,000, and Munsey's gift leaves only \$100,000 to be raised.

When did you ever consult any of the clients?

Q—Did you ever consult any of the clients?

Q—Who were they? A—Dr. Waterman and Mrs. Morris.

Q—When was that? A—In 1914.

Q—When did you first meet Mrs. Morris?

A—After Mrs. Morris had visited him two or three times before the board of review of the Labor Department. After a hearing the board decided to hold up his deportation indefinitely until a decision can be reached on the merits of the case.

8 HOLDUP MAN
IN SOUTHERN
BOB CAFF

Eight holdup men, all said to be more or less under influenza, invaded a restaurant at 1104 Washington street, South M. today.

They drove the proprietor and corps of waiters to the street, closed out the till.

When the holdup squad saw the place, the proprietor, Saul Lazarow, thought they were on a group of young fellows who had been "making a night of it." He only the gang set upon him and the waiters.

Los Angeles--the Year 'Round Market

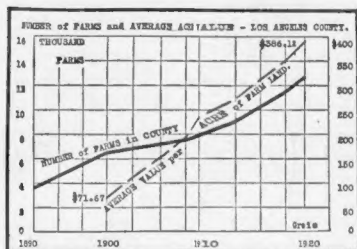

Chart furnished by Research Department, First National Bank, Los Angeles.

Farms Operated by Owners

To quickly give you an understanding of basic conditions we are presenting some charts prepared by the First National Bank of Los Angeles.

Number one tells the number of farms in Los Angeles County and how the acre value has risen since 1900.

Seventy per cent of these farms are operated by owners.

The number of farms operated by owners compared with the number operated by tenants has increased more than 100% in the 20 years shown in the chart.

That's a very healthy indication as is the increase in value from \$71.67 in 1900 to \$206.12 in 1920.

In 1920 there is a spot on earth more likely to produce profitable returns for your advertising.

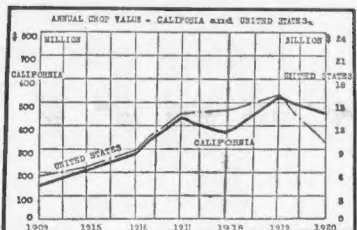

Chart furnished by Research Department, Los Angeles Trust and Savings Bank.

Farm Values Increasing

The decline in crop values in 1920 was far more all over the United States than it was in California.

Our chart shows the total country decline was 38%.

The California decline was 10%.

California agriculture and horticulture yields varieties of crops many of them of exceptional acre value.

Fruits and nuts compose 50% of the crop yield and increased 43% from 1909 to 1919.

In Los Angeles County the increase was 52%.

A total of \$42,117,820 in 1919.

the total for the State was \$108,570,469.

Hay and forage produced \$86,121,480.

Livestock \$201,089,245.

Vegetables \$47,377,521.

All farm property increased in value 112 per cent.

The land value alone more than doubled in ten years.

Where fundamental values like these are constantly increasing would seem to be a good place to introduce your brand and create demand.

because the means are at hand to pay for wanted articles.

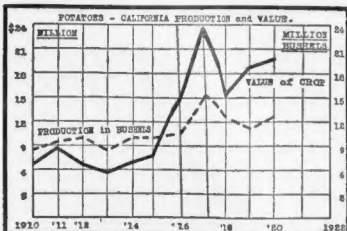

Chart furnished by Research Department, The National Bank, Los Angeles.

Two Crops of Potatoes

Here's a fact to emphasize the year 'round market feature of Southern California.

See chart number three.

The potato can be planted every month in the year excepting October and November.

The commercial crops however are planted twice a year maturing in June and November.

In 1920 the potato crop of California yielded \$19,522,008.

and you note that it's a two-crop a year commodity.

The money the farmer gets for potatoes is being spent all the year.

That's another reason why your advertising should be done all year around.

Truthful Labels

Did you know that the label on a box of California cantaloupes must give the size truthfully or come into conflict with a State law?

That's one reason why the volume shipped each year is increasing so rapidly from Imperial Valley alone.

In 1905 297 carloads in 1915 4,721 in 1921 10,603.

Here's another point of interest to you growers in Imperial Valley can begin shipments May 15th and have their crop marketed before other sections have commenced.

This \$7,952,500 supplied by cantaloupes alone is making the Imperial Valley rich.

That's good summer money waiting to be spent to buy what you have to advertise.

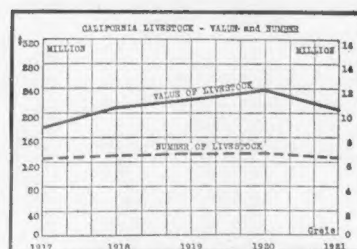

Chart furnished by Research Department, Los Angeles Trust and Savings Bank.

Blended Livestock

If all the livestock in California were owned by all the persons who live in this State each man woman and child would own the equivalent of \$9.43 worth.

That's more than those of any other State would own.

Chart number eight shows the value of livestock from 1917 to 1921.

The value of the livestock January 1, 1921, was \$304,357,000.

much of it bred from superior stock which thrives on the excellent feed available all the year 'round in this mild climate.

California has replaced the longhorn of the plains with the Jersey, the Guernsey, the Shorthorn, the Polled Angus, the Hereford and other improved breeds.

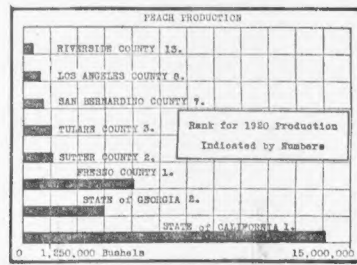

Chart furnished by Research Department, Los Angeles Trust and Savings Bank.

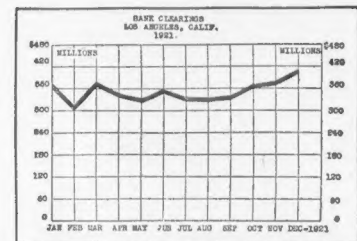

Produces Perfect Peaches

Some people think of California as the orange State.

They may not know that the State produces 28% of the entire United States crop of peaches.

In 1920 the California peach crop yielded \$26,220,000.

a total of \$7.01 for each man woman and child to spend for what you manufacture when you advertise and sell it here.

The bank clearings of a community tell a graphic story on how people buy.

Here then is the chart that verifies the statement that Los Angeles is the Year 'Round Market.

From March clear through to October there is

but little drop in the buying 'curve'.

The holiday buying rise is quite sharp and there is a brief reaction from this.

But when business is dull everywhere else in summer it is still mighty good in Los Angeles.

The Year 'Round Market

Is the territory covered by the Los Angeles Examiner

Keep your factory busy twelve months in the year.

sell in Southern California the year 'round market where some kind of crop is always being harvested.

Where there are 515 miles of paved and surfaced highway in all directions--traveled by hundreds of thousands of automobiles and motor vehicles both pleasure and business.

Out-of-Door Climate Where the out-of-door climate invites to actively creates healthy appetites demands variety in clothes.

Where the soil on top and down below is rich in productivity for farmer fruit grower miner and oil operator.

Where the things produced are in demand at fair prices and prosperity is common to all.

Where travel from abroad and from the East brings a constant stream of interested folk to learn of this new El Dorado.

Intelligent Industry Where intelligent industry furnishes abundant answer to sustained effort.

Where on beach and mountain the people go in thousands for healthful exercise the year 'round.

Where there has been neither business slump nor business revival but genuine prosperity proved by constantly increasing bank clearings.

Where the building permits are larger than in any other city of comparable size in America and building proceeds the year 'round.

Where there is no cessation of business activity winter summer spring or fall.

Where in the winter months Eastern travelers fill the hotels in summer the people from Arizona Texas and Nevada crowd our busy streets.

Little Seasonal Change There is perhaps less of seasonal change in climate here than anywhere else in United States.

Also there is less of peak or slump in sales summer or winter spring or fall.

Here is the place to concentrate your selling forces in the summer months when it is dull elsewhere.

200,000 Shriners For instance--there are coming to California next June 200,000 Shriners by train boat and motor.

They'll bring their hands and uniforms and patrols.

The average length of their stay will be say fifteen days--the average Shriner will spend at least ten dollars a day.

\$150.00 each or \$30,000,000.00.

The annual convention of the International Association of Rotary Clubs will be held in Los Angeles in June.

10,000 Rotarians There will be perhaps ten thousand Rotarians staying on the average fifteen days and spending ten dollars a day.

making their total at least \$1,500,000.00.

These two bodies of wide men and their wide-awake women folks who will accompany them will observe the prosperity which is so evident everywhere in California.

They will travel about in motor cars over the wonderful highways and go back home enthusiastic about California.

Advertise in Summer Here then is the place for your activity in advertising when trade is dull elsewhere.

The Los Angeles Examiner is the medium through which to reach the prosperous people of this prosperous Southwest where the season is known only by name.

Variety of Wealth Sources

Variety of wealth sources is a valuable asset if one crop needs financing another is furnishing the means.

If one crop fails another keeps the mare going.

California produces minerals in abundance one of them made famous by the 20 mile team advertising.

But only a quarter of the borax produced in California is consumed by domestic requirements.

Other uses are such as in the enamel and porcelain coatings for cooking utensils.

sinks and bath tubs also in the manufacture of soap and pottery and yields the wealth the year 'round.

Los Angeles Examiner

Our offices in Chicago and San Francisco are in the Hearst Building, in New York, 1554 Broadway.

The Los Angeles Examiner has the largest circulation of any morning and Sunday newspaper published in the Great Southwest, over 125,000 daily, and more than a quarter of a million copies Sunday.

BOSTON PREPARES WARM WELCOME FOR CARDINAL O'CONNELL

EUROPE'S LOSS! It's always dangerous to rock the boat, but they do say that the Misses Ann Fulton, left, and Eleanor Ashley, both of Springfield, rocked the S. S. Arabic with their popularity. The girls, who were voted two of the most charming on board, arrived in New York after a six months' tour of Europe. They brought with them some late fashions, not to mention walking sticks. See for yourself!

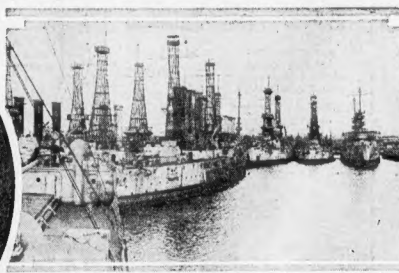

"AMERICA IS THE HOPE OF THE WORLD!" That epitomizes the message brought from Europe by Cardinal O'Connell, who arrived home in excellent health on the S. S. Arabic at New York. With him above is Mrs. Spence of St. Joseph's Church, Roxbury, both of whom are waving greetings to more than 100 Boston churchmen at the dock.

HUMAN SUFFERING KNOWS NO SECT! Four thousand Bostonians of Jewish extraction gathered in Symphony Hall to pledge their aid in the Jewish War Relief Campaign. Among them were, left to right, Mrs. C. King and Mrs. E. Steinberg, and below, Miss Gertrude Owick.

DANCE A LITTLE LADY! Little Mary Graham, six years old of Medford, will shake tiny but clever feet as a featured entertainer at the dance carnival of the Terpsichorean Club at Convention Hall on Wednesday evening. (Photo by Lewis)

ANOTHER MAINE "GOES DOWN!" But this time it goes down for scrap iron. The Battleship Maine, the largest ship in the foreground, came into being from popular subscription. This picture was taken at League Island just before it was scrapped. (International.)

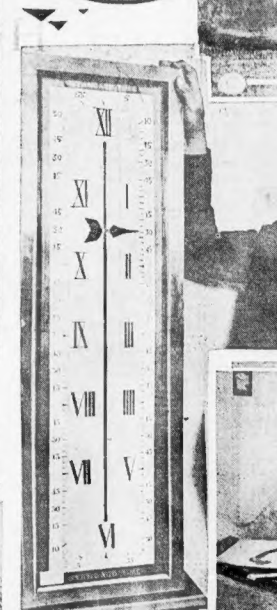

LYING DOWN ON THE JOB! Hammi Dean, the golfer, showed Boston sojourners at White Sulphur Springs a new way to tee off. The caddy never knows when he'll need a new nose. Try it! Business is slack with the dentists. (Keystone)

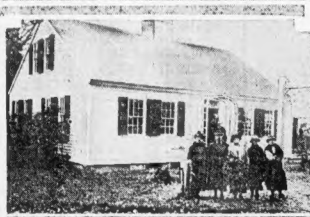

GET INTO KNICKERS. Girls, and Get a Prize! Miss M. Annie Sullivan of No. 12 Howe st., Gloucester, fancies knickerbockers, so we fancy she's today's winner of the Knickerbocker Girl award of \$5. Send in your photographs to the Editorial Editor, Boston American.

LINGER LONGER LINGERIE! The fashionable New England woman's wardrobe is not complete without at least one French lingerie, but when it is of lace, made over a foundation of chiffon with clusters of flowers, there is little left to be desired. It is dressy, loose and comfy. (Underwood.)

SHOWING THE PUBLIC A GOOD TIME! Irving L. Thompson, of Chicago, a war veteran, and his new vertical clock. He has devised a new time keeping system which will do away with the circular dial clock. (Underwood.)

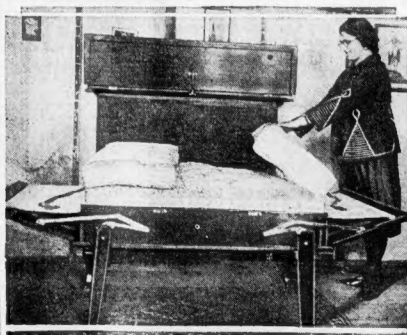

THE BIRTH OF RED CROSS! The birthplace of Clara Barton, war nurse and founder of the Red Cross, at Oxford, Mass., which has just been restored by the Women's National Missionary Association of Universalist Church.

MILE SUZANNE SILVERCRUP! daughter of Justice of Supreme Court of Belgium, who will soon become the bride of Henry W. Farham, Jr., of New Haven, Ct. (Keystone)

DONNA BERTHA LUTZ, a Brazilian beauty and one of the most conspicuous figures at the Pan-American conference at Baltimore, called by the National League of Women Voters. (Keystone)

"DI, MI, TEN O'CLOCK AND NOT A RED MADE!" No longer will the busy housewife bewail arduous bed-making, for here is the "one-minute bed" which can be made up in 60 seconds. One of the features of the Home Beautiful Exhibition. Miss Sophie Halley shows how easily it is done.

"GIVE US A RADE ON THE HANDLE BARS, LADY!" If you want to see some smart riding, smarter costumes, won by the smartest culies, don't forget to see the Boston American's Bicycle Run on Sunday, April 30. Here is Miss Dortha Moody of Lynn with one of the first prize awards. Donated by Hub Cycle Co.

BRAVES TACKLE THE DODGERS AT OLD WIGWAM TODAY

TO GET GOING

By NICK FLATLEY.
Braves Field will be a baseball bazaar all this week, with the Mitchers endeavoring to recover from the various thumps on the chin and the Dodgers endeavoring to recover from the various thumps on the chin. The Braves will be the first to get going, and the Dodgers will be the first to get going.

Most of the Braves have been in the city since Monday and Tuesday. After all that the Braves took off on the Western trail.

A week on the home lot can do the ball club a world of good. A few warm days will give the pitchers a chance to do some real practicing and it has been evident to the naked eye that they need exactly that.

Most of the Braves have been in the city since Monday and Tuesday. After all that the Braves took off on the Western trail.

Great pitching improvement is due very shortly at the Wigwam. The team has been hitting the ball in the field well, and just as soon as the sharp shooters contribute their share to the program the victory lot will begin to burgeon.

Nitch has the pitchers, don't make any mistake about that, and they're bound to deliver. This spring, as far as the Braves have been concerned, has been utterly unseasonable, only three of the playing days thus far being at the proper temperature.

No games would have been played.

The improvement will consist primarily of adding bunnies.

Allan Swenson is coming along fast and will make the best at Bear Hill, but he is not yet ready to play. He should be a conspicuous figure in the state Junior championship at Albemarle. He qualified last year and was put out in his first match on account of back pulling.

The old tennis courts on the hill are to be abandoned.

The new clubhouse erected last year is but a drive and a machine from the old one, and it is a machine. The site is ideal, being an elevation of land which gives a panoramic view of unusual scenery for many miles around.

B. U. PUTS BABE TONY BACK IN GOOD STANDING

Henry L. (Babe) Tony, captain of the 1922 football team at Boston University, has been reinstated to good standing, by the athletic council. He was suspended a month ago for unintentionally violating the rules of the game. His friends and the student body of the school are elated over the decision.

In an interview with Tony he declined to say anything other than the decision was expected. He also hoped that no undue criticism or comment would be brought to bear upon the athletic council for their action in his case, as he thought it would reflect on the progress in suspending him.

When he was given the opportunity to present his side of the case a quick decision was reached and the suspension was immediately lifted.

STADIUM SCENE OF 'Y' GIRLS' TRACK MEET

OUTDOOR TRACK PRACTICE WILL BEGIN ON MAY 1 FOR THE BOSTON Y. W. C. A. girls who are prospective entries for the Inter-W. C. A. track meet in the Harvard Stadium on June 18.

During the winter indoor practice under the direction of Miss Dorothy Natus, physical director at the Y. W. C. A., a number of girls have shown good form and are therefore regarded as likely place-winners for the coming year.

Miss Lillian Gray is an expert in the jumps. Miss Dorothy Natus, physical director at the Y. W. C. A., has shown up especially well at jumping and hurdling. Miss Dorothy Smith looks far to be one of the best.

The Fans Who Think Are Following The Pink

Want the winners?
Of course you do!

That's the real low down on our various sporting events. You get the WINNERS before the major classics are staged. All because the PINK has the closest bunch of pickers in the sporting game.

Nick Flattley handed you the "inside" tip on a couple of baseball triumphs.

Jack Conway capped along at 1,000 and handed out the winners in the three big local boxing and wrestling events last week.

Malina, Lewis and Cals. They all came through.

Bert Collier, very naturally, slipped over some juicy winners which whirled in at event prices.

And there'll be more in baseball, boxing, wrestling, horse racing and other sports.

The experts who write for The Pink are "in the know." And they'll give you the info.

All you have to do is to trail along with The Pink.

All you have to do is to trail along with The Pink.

All you have to do is to trail along with The Pink.
